## PREUS FIGHTS RADICALS' FOE THEMSELVES

## Impracticable Ideals Futile, He Says.

BY ARTHUR SEARS HENNING.

St. Paul, Minn., July 13.—[Special.] Gov. Jacob Aal Ottosen Preus, Republican candidate for United States senator, is fighting a desperate battle to prevent further encroachment of the forces of organized radicalism in Minnesota, where they gained an important foothold with the election of Senator Shoup last year.

Preus, 40 years of age, grandson of a Norwegian immigrant, is polished, educated and possessing an engaging personality and a brilliant record in public office, is endeavoring to unite the conservatives and progressives of all parties against the radicals in control of the Farmer-Labor party.

Unless the Farmer-Labor party is defeated in this special election, says its politicians, it probably will dominate Minnesota next year in both the state and national elections.

*Dreams Versus Realities.*

The young governor, who is stamping the rural districts, is telling the farmers that there is more promise of life for them from their economic interests in a state program of agrarian legislation than in the nebulous promises promised by Magnus Johnson, his Farmer-Labor opponent. However, the Farmer-Labor party, he points out, cannot carry out its

Only through the work of the local parties, says the governor, can either the farmer or the laborer expect any help. The Farmer-Labor party, with one senator and two congressmen, cannot be of any avail.

The only real help must come from a major party and right now and in the next two years at least the Republican party is the party in power.

*Pointing Toward Results.*

While Mr. Johnson and other Farmer-Labor leaders are inspiring hopes of a government guaranteed profit on wheat and other grains, although there is not the slightest chance of any legislation, Gov. Preus is advancing the extension of cooperative marketing as the most feasible means of increasing the returns on farm products.

While others are promising without fulfilling, the governor points to the record as evidence that he has been working pretty steadily at the task of helping the farmer. He takes credit for the action in two sessions of the legislature "to put cooperative marketing on a better basis than in almost any other state in the nation."

*To Death.*—Miss Elsie fall from window (marked avenue).

Truth crushed to earth will rise again, he said, grinning. This is one of his favorite sayings.

The jury returned its verdict at 3:40 o'clock. The dock sent a thrill through the crowd and it seethed for seats and became quiet. Ballie Frank O'Connor led in the jury and gave the fateful paper to Clerk Clarence Woodward. Judge McDonald warned against any demonstration and instructed the clerk to end the verdict.

MacDonald First Friend.

"We the jury find the defendant, Vernon McDonald, not guilty," was the first to fall. There was a stir and a sigh, and the crowd leaned forward.

The same verdicts were read for the defendants: Thomas J. Hickox, William L. Kalichuk, Jess P. Angerbeck, Patrick H. Moynihan, Fred Moynihan, and Edwin S. Davis. When Davis' name was reached, and there was no break in the tenor of the verdict, restlessness became more apparent.

"They're all not guilty," men whispered to their neighbors.

And so it was. "Not guilty" followed for Albert H. Seeverhaus, Virgil C. Rohm, Fred Lundin, W. A. Bither, Charles J. Forsberg, Fred W. Kruegel, John A. Campbell, and Charles E. Ward.

The murmuring which had begun with the reading of Lundin's name swelled to a roar. Peat up emotions broke loose and the crowd went wild. The judge beat a hasty retreat to his chambers.

File By and Thank Jury.

Birther was the first to forge his way to the jurors. The other defendants pushed through the mob to the twelve men. They sat among them passed along the row of jurors. While he was shaking hands with one he asked the foreman was:

"That is the man," he was told.

I want to extend to all the jurors

From a Low Tariff Man.

Gov. Preus not defend the Mcumber act. He always has been a low tariff man and he is advocating the revision of the new law downward. He says:

"Through my study of the tariff, beginning as a clerk in Washington in 1869, I have learned that a tariff, generally speaking, is better for the people of the northwest. Those who supported the new tariff law did not realize the fact that it contained many schedules they thought too high, and so their opponents became very anxious to offer a measure of help to the farmers through duties on farm products. It was against it because it did not believe it would help the farmer any consumer, and I will tell them that I am something of a

on the old protective tariff.

MYSTERY SOLVED.—

Wealthy lumberman is held

for death of Lida Bertacchi,</p

of the Thiebaud, a police captain, and two prominent citizens. A large quantity of papers was taken from the police station and the city hall. The French left Barmer at 10 o'clock, the entire operation covering three hours.

This sweep upon Barmer, which, with its sister city of Elberfeld, forms a vast industrial center extending four miles up the Wupper valley, was made as a reprisal for the recent kidnapping of three French soldiers and two customs officials. All were released, minus their ammunition, after being taken before the Elberfeld chief of police and questioned for hours.

Limburg Is Seized.

DUSSELDORF, July 13.—[By Associated Press.]—The town of Limburg, just beyond the Coblenz bridgehead, which the Americans formerly held, was occupied by French troops yesterday as a permanent occupation town.

Krupp Pay in U. S.

(Chicago Tribune Foreign News Service.)

ESSEN, July 13.—Owing to the difficulty of obtaining sufficient marks, Krupp's and other firms in the Ruhr are paying their employees in U. S. U. S. called emergency money. These have been issued in denominations of 20,000 and 50,000 marks and are accepted by all shopkeepers, who present them to the manufacturer for redemption. Considerable sums have been paid by the French since the reoccupation of the Rhinebank towns here, and the watchfulness of French border guards has created a shortage of marks in the Ruhr.

#### BRITISH LIKE PLAN

BY JOHN STEELE.

(Chicago Tribune Foreign News Service.)

LONDON, July 13.—[Tribune Radio.]—The government's statement on the European situation was universally well received today except by Lord Northcote's Daily Mail and the Mirror, which declared that the British and French views of the situation will be the same.

The irritation of the Rhinebank population against the Berlin government is more acute than ever, Gen. Mangin continued. "They do not wish to become French, but they are unwilling to remain under control of Prussia. The separatist tendencies are getting stronger every day.

## RHINE REVOLT DUE TODAY IN OLD YANK AREA

Gen. Mangin, Curbed by  
Wilson, Predicts Coup.

BY RAYMOND FENDRICK.

(Chicago Tribune Foreign News Service.)

PARIIS, July 13.—I will not be surprised to see a coup d'état in the Rhinebank shortly," Gen. Mangin grimly told THE TRIBUNE today. From other sources it is learned that the coup is not for tomorrow.

This prospective Rhinebank government of Dr. Dörten and Herr Dietrich would have been set up under one or less American auspices if the American forces in Germany had not been called home recently, since it will be established at Coblenz, Gen. Allen's former headquarters.

The irritation of the Rhinebank population against the Berlin government is more acute than ever, Gen. Mangin continued. "They do not wish to become French, but they are unwilling to remain under control of Prussia. The separatist tendencies are getting stronger every day.

Calls It Escape from Chase.

In many parts of Germany today conditions are worse than in the time of war, and the Rhinebankers will be glad to escape from these difficulties and put their state on a sound economic basis. The Rhinebank is rich and under self-government can easily become prosperous again while the rest of Germany is failing into chaos."

Gen. Mangin, former commander of the French 16th army, was withdrawn as commander-in-chief of the allied forces on his return by Georges Clemenceau in 1919 upon demand of Woodrow Wilson and David Lloyd George.

He was openly heading a separate movement in the Rhinebank on the ground that the Versailles treaty failed to assure the security of France. He insisted the French were justified in breaking off the Rhinebank, from France and setting up a separate German state more friendly to France.

Feared New Alsace Problem.

Maurice Wilson and Lloyd George asserted Gen. Mangin was trying to set up another buffer state, thus creating a new Alsace-Lorraine problem.

An unofficial way the French have continued to encourage the separatist movement, which Gen. Allen and Pierrepont Mayes, former American high commissioner at Coblenz, strongly opposed.

Report Another Newspaper

Has Been Sold to Hearst

One of the newcomers crept up behind Engel and snatched his revolver from its holster. At the same instant all three produced revolvers and ordered the five men to hold up their hands. Four were forced into the office, where one man guarded them, while the others seized Denesnak and took him to his apartment on the second floor of the adjoining building.

There they held up Mrs. Jessie Denesnak, who was in the flat, taking it off a diamond ring and a stick pin, valued at \$7,000. Locking Denesnak and his wife in a closet, they returned to the garage, where they robbed the four men and took about \$40 from the cash register. Then, returning Engel to his revolver, taking the precaution to empty it, they fled in their car.

Police Pursuit Vain.

Engel released Denesnak and set out at once in pursuit. He followed the car for seven blocks, but lost sight of it when it turned east in 21st street.

The others robbed were Joy Mardith, 7604 South Honore street, and George Miller, 4857 South Ashland avenue, employee, and Edward J. Hubert, 2405 South 3rd street, car owner.

In addition to the jewelry the bandits obtained about \$550, which was taken from Denesnak.

Cranks Car in Gear; He's

Hart; Fence Is Wrecked

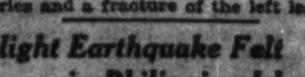

Forgetting that he had left his automobile in gear, Harry Linski, 3235 Lexington street, started to crank it yesterday. The car ran over him and only stopped after it had gone through the garage door, across the aisle, through a six foot fence and crashed into a brick building at 3232 Polk street. Linski suffered internal injuries and a fracture of the left leg.

## TRUE BILLS FOR PERDUE & CO. AS AS BUCKETEERS

"Big Fish" Firm Accused  
of Stock Thievery.

BY DONALD EWING.

The county grand jury yesterday indicted the bucket of another bucket, the bucket of five members of Perdue & Co., a Chicago, Cleveland, and Pittsburgh brokerage firm, and it is to be one of the group of indictments to come. The bucket was accused of bank rolls big enough to amount to from \$15,000 to \$25,000. Four charges were contained in the indictment, each defendant being accused of conspiracy, larceny by bailees, and receiving. Those named are Manning, William J. Kaufman, W. L. Cole, Solomon Letton, and Charles L. Blowitz. Cole could not be reached at the firm's local office, 10 Clark street, yesterday. It was said he was being swindled and was the only man in the case, but he had left.

Get Nothing Back.

A particular charge on which the two were indicted dealt with a combination by Max Srahil, 315 East 28th street, that he had loaned \$4,000 to the company, receiving back neither principal nor money. This case was used for the indictment. Other combinations did figures many times as high as Srahil's complaints, it is said. The indictment revealed that Perdue & Co. operated in the most apparent style of bucketeers, and that the men named all previously had been mixed up with deals or firms already.

Trial of Marriage Promise.

That the trial came up today is due to the fact that the defense, delegate to the interred, Dan Forni, over the discovery, M. Forni took legal proceedings against his mistress, demanding \$10,000,000. She has extorted \$10,000,000 from him also. M. Forni told his rival they met. He also filed suit.

Stocks Found Missing.

Bankruptcy proceedings proved the stockpiling block, numerous securities being reported missing when examination was made of J. H. Burnham & Co.'s books. Then the two partners became members—with the others indicated—of Perdue & Co., a new stock exchange apparently was used to cover their identities until the firm came along, one of the big men in Warren-Lots & Co., which has neither a Warren nor a Los in its firm and which is under fire here and in Michigan for alleged conspiracy, bucketeering and fraudulent stock sales.

Chief Justice Mahlon McKinley recently issued an injunction to compel Perdue & Co. to bring their books to the state's attorney.

Two Illinois lawyers, E. T. Morris and Robert Hill, prosecutors directing one of the state's attorney against stock shops, as unusually strong and believed to preface legal action against other firms of the "big deal."

E. T. Morris & Co. O. K.

Investigation of several complaints regarding large sums now going on at the same time, it was revealed that complaints supposedly against E. T. Morris & Co. 111 West Jackson, actually dealt with other persons named Morris. No complaints have been received against E. T. Morris & Co., and inspection of their books by federal and state officials showed that they were not bucketeering and were deviating all stocks sold on demand. Examination that E. T. Morris was implicated in federal indictments was conducted, and stock data was found correct. The Morris' the government looking is an Edward Morris charged with using the mails to defraud and failure to pay income tax.

State has a case against Corson Morris, formerly with M. B. Wolf & Co., which closed after irregularities in the business had been uncovered. The hearing on charges against this Morris is to begin yesterday before Judge Francis.

## COUNCIL MUST PADDLE ITS OWN TRACTION CANOE

Members of the council local transportation committee will have to determine purchase of the tractors with surface and elevated roads official next Monday without help, Mayor Dever declared yesterday. Henry A. Blair, president of the city, and Britton L. Budd, chairman of the elevated lines, have invited to confer with the committee by its chairman, Alderman U. S. Edwards (4th).

"The suburban terminal at Randolph street will be completely reconstructed and that at Van Buren street will be extended and enlarged with suitable subway connections under Michigan avenue to each."

The committee is a legislative body, I am an executive officer," he said. "Because I may be called later to approve or disapprove committee's work, my attendance at these meetings might be construed as attempt to influence them."

## FOREIGN FLUIDS IN LAKE CAUSE "FISHY" TASTE

Unpalatable fluids poured into the lake were manufacturing plants as well as natural vegetable growths on the food account for "fishy taste" in the city's drinking water, which recent complaints attribute to overchlorination of the water by health department.

Opposition to the plan continued to grow yesterday. Delegates to the annual convention of the American Federation of Teachers adopted resolutions severely attacking the plan, and letters of complaint from citizens poured into the offices of the trustees.

"It appears the sentiment for less work, instead of more," said Hart Hanson, a trustee.

It was decided the platoon system was regarded as the most likely plan to be adopted to solve the overcrowding problem.

## FAMILIES HAVE NARROW ESCAPE WHEN BUILDING COLLAPSES

Wreck of the building at 5440 South Halsted street, which caved in as the result of excavating work being done for a new bank building at the corner of Garfield boulevard and Halsted street, next door. Two families, in one of which there were nine children, occupied the building and had narrow escapes.

## AURORA-ELGIN TO HIT 63 MILE CLIP WITH ITS TRAINS

### Announces Plans for Big Improvements.

BY OSCAR HEWITT.

The purchase of twenty new cars, the revamping at a cost of \$100,000 of the Wells street terminal into a three-story structure, increase of train schedules and other improvements on the Aurora-Elgin third rail electric line were announced in detail yesterday by President Thomas Conway Jr. He assembled more than a score of prominent dealers in western suburbs real estate at the Union League club to tell them of the results planned.

WOODROW WILSON  
IS SUBPOENAED BY  
MORE LAWYERS

Washington, D. C., July 13.—(Special)—A subpoena was issued today for former President Woodrow Wilson to appear on Monday in the Morse conspiracy case in the District of Columbia Supreme court.

The subpoena was issued at the request of counsel for the defense. No attempt to serve the summons had been made tonight by United States Marshal Edgar D. Snyder.

Whether Mr. Wilson's physician will permit him to take the witness stand is a question. It is understood that Rear Admiral Cary T. Grayson, Mr. Wilson's physician, has had the matter under advisement several days.

Defense counsel admitted that in view of certain developments Mr. Wilson may not be called upon to testify. His deposition may be taken and it is not believed government counsel will object.

Furthermore, by the latest development in electric control we have eliminated the jars and surges incident to starting and stopping a train. That is the big point in the difference in riding on an English and an American train. Those who have ridden on both claim of the job and jar of American trains. Our new cars will eliminate this.

We will increase our schedule of trains as fast as we are encouraged by the traffic."

More details regarding electrification of the Illinois Central suburban service became available during the day. Chief Engineer Daniel J. Brumley said that the plan of trains in a two-unit. The two cars can be independently connected and the trains will consist of two cars, four cars, six cars or other multiple of two cars.

Will Have Own Tracks.

"Operation of suburban trains throughout the terminal will be on tracks exclusively for this service," Mr. Brumley said, "and without interruption from through passenger, freight, or switching trains. From Randolph street to Roosevelt road the suburban trains will be confined to four main tracks; south to 47th street there will be six main tracks; then four main tracks to 57th street; then three main tracks to 15th street; then running down to two tracks to Madison street.

2 BREWERIES, 14  
BARS CLOSED BY  
FEDERAL COURT

Two breweries and fourteen cafés, saloons, and restaurants fell the fold of the prohibition act yesterday. The Fullerton Manufacturing Company, formerly the Northwestern Brewing company at 2326 Sedgwick street, was closed for one year on an injunction issued by Federal Judge Adam C. Cliffe (4th).

The suburban terminal at Randolph street will be completely reconstructed and that at Van Buren street will be extended and enlarged with suitable subway connections under Michigan avenue to each."

This suburban service will be operated by overhead trolley. The electric locomotives for other services have not yet been designed.

NO SCHOOL ON  
SATURDAYS, IS  
WORD TO KIDS

Children of Chicago may be just about certain they will not have to give up their Saturday sports to attend school, as suggested by some members of the board of education as a solution to the problem of overcrowding.

Opposition to the plan continued to grow yesterday. Delegates to the annual convention of the American Federation of Teachers adopted resolutions severely attacking the plan, and letters of complaint from citizens poured into the offices of the trustees.

"It appears the sentiment for less work, instead of more," said Hart Hanson, a trustee.

It was decided the platoon system was regarded as the most likely plan to be adopted to solve the overcrowding problem.

EMBEZZLEMENT CHARGE DISMISSED.

Charges against Morris Wiedenhofer, 204 Cortes street, were dismissed from the grand jury, which of the North American union, of which he was treasurer, yesterday declared the hanging verdict for Mrs. Nitti unjust and unfair.

## CROWE TO SIFT DR. BUNDESEN'S CHARGE OF PLOT

### Linking Name to Thefts Laid to Stand on Vice.

Rumors that vice lords who resent his forcible detention of diseased prostitutes caused Health Commissioner Herman N. Bundesen to be named with William G. Murray, deposed superintendent of the board of public works equipment in the looting of numerous dogs and stores, will be sifted by Assistant State's Attorney Joseph P. Savage, it was announced last night.

LADY ASTOR ROUTS  
TORIES IN DRY BILL  
FIGHT IN COMMONS

(Chicago Tribune Foreign News Service.)

**STRIKES ON RAILROADS.**

The railway shopmen's strike, which gave rise to the sweeping injunction order just made permanent by Judge Wilkerson, was, in our opinion, a mistake from every point of view. It was injurious to the strikers, to the railways, and to the public. The methods adopted by the strikers were, in many cases, disastrous to any sensible hope of success, justly offensive to the public, and not to be tolerated in a government of law.

We believe the terms of the injunction were too sweeping, even after some modification. We would have the freedom of expression very jealously safeguarded even, and perhaps especially, where there is great temptation to restrict it in passionate controversy which threatens serious disorders. Nevertheless the strike did raise sharply the issue of public order, safety, and legitimate property rights, and the strikers had a weak case for protest, in view of a violence which, despite disclaimer, was deliberate and concerted.

Undoubtedly the injunction was effective, and its success, supported by public opinion, must have a deterrent effect in future railroad labor strategy, though, even if sustained by the Supreme court, we doubt it will prevent strikes altogether, as Mr. Daugherty asserts. But even if this were to be realized we should still have uncompleted the task of establishing a properly balanced system of adjustment of railroad labor disputes. The shopmen complained that the labor board rulings were not compulsory upon their employers, but, by the interpretation of the department of justice, were in actual effect compulsory upon employees. Some railroads had and some still do disregard board rulings; the shopmen disregarded a board ruling, but did not get away with it. Labor says: We do not want labor board rulings to be compulsory, but if in effect they are compulsory as to us, they ought to be made compulsory on the railroads.

This gets the public nowhere. The chief public interest is in continuous service. It is a vital interest. The only reason a railroad strike ever has been tolerated is that it has failed. Transportation is an essential not only of prosperity but even of human life. Any labor group which can paralyze it completely for a serious period is master of life and death; is superior to the government of the people.

This fact is evident in labor arguments on behalf of the right to strike. But it represents an irreducible minimum which must be recognized as a basic factor in any legislation pretending to deal conclusively with the relations of the railroads to the public. The right to strike—that is, to quit work in concert for the purpose of forcing demands—is well established in private industry. It cannot be accepted as paramount in any industry the continuous service of which is essential to the existence of all of us. There it is confronted by the public's right of self-preservation, which must be paramount even to the right of the workers to better his condition.

On the other hand, it must be recognized that railroads are enterprises conducted for profit, and if the right of the employee is restricted by law in the public interest the employee's interest must be protected by law. It would not be just to withdraw from the employer his economic weapon and not disarm his opponent in controversy, and the labor board was set up as an agency to establish this balance, secure equitable adjudication between employer and employee, and thus avoid the necessity for the resort to force represented by strikes or lockouts.

The plan, thus far, has not prevented a strike. But it does not follow that we are on the wrong road. The plan has not been given time to work. Perhaps the authority of the board, its power to compel both parties, should be strengthened. At any rate, time should be allowed for the deterrent effects of the plan to be shown. Some amendments may be tried at once. For one, we think the board should be consolidated with the rate adjusting agency, the interstate commerce commission, or brought into such relation as to provide for unified regulation of rates and wages, which are inevitably interdependent under any intelligible system, private or public.

What is needed on all hands is patience and a fair spirit towards all interests. With them, we have not a doubt, a system of regulation both just and effective can be evolved.

**A MILE A MINUTE MAY REMAKE CHICAGO.**

Daniel J. Brumley, chief engineer of the Illinois Central railroad, tells the American Society of Civil Engineers in session here that his company will be operating a full series of electric suburban trains at a speed of fifty-seven miles an hour within three years. That is the first definite pledge of progress in the matter of rapid transit in Chicago we have heard in all the years of bubble on the subject. And credit must go to private enterprise, not to politics or municipal ownership.

Such a service will carry loop workers as far south as 59th street in six and one-half minutes. It will extend the possible home district of Chicago workers at least fifty miles to the south. It is likely to be revolutionary in the life of the city. It will put a comfortable home and garden at low cost and with comparatively low taxes within the means of thousands of workers now cramped into

the city. It is progress of a most vital and practical character. And it is, or should be, only a start.

What the Illinois Central can do other railroads can do. If every line centering in Chicago would do as much our entire rapid transit problem would be more than half solved—even without a subway. As a by-product, the economic area of Chicago would be multiplied by at least ten. In effect, it would absorb every town within a radius of sixty miles of the loop by bringing them as close in point of time and comfort as Evanston now is. Incidentally, it would cut our smoke nuisance in half. Hasten the day, and cheer on the I. C.

**GREAT BRITAIN SPEAKS.**

The British prime minister's statement is the one which cannot but have considerable influence on world opinion, in so far as his opinion is not hopelessly preoccupied with special considerations or foregone conclusions. In the United States, we venture to say, Mr. Baldwin's statement will receive very general assent and approval as expressing certain truths, from our point of view, as self-evident, as, for example, "that the period of conflict should as soon as possible be terminated; that the indefinite occupation by one country of the territory of another in time of peace is a phenomenon rare and regrettable in itself, to which an honorable end should as soon as possible be found; that the debtor should not merely be called upon to pay his debt, but should be placed in a position where he can do so, and that his capacity, where it is in doubt, should be tested and determined, and that unitary efforts should be made to accomplish these ends."

The statement is, nevertheless, merely preliminary, or, it is more accurate to say, preparatory, though a very tactful and effective preparation, before a formal declaration of war. Mr. Haynes, the Federal spokesman, has written a book to tell how he prevents us from getting a drink.

**A LINE O' TYPE OR TWO**
*How to the Line, let the quips fall where they may.*
**CALL ME BACK!**

Now that we've parted, Dear, the past o'erwhelms!  
Do you recall  
The garden—night—the mossy, covered wall—  
The whispering vines?  
I sang: you listened,  
Tensed,  
Your small hands clasping tight;  
And, as my love you sensed,  
Your tender, dark eyes glistened,  
Caresingly alight.

Being so distant, Sweet, 'tis hard to bear!  
Do others sing,  
Beside you there?  
Entranced, do bluebirds  
Pause.

While others passion voice? . . .  
Ah! Call me back, because  
I've just composed new words  
And music—very choice!

**B. CRACKY.**

DR. PICKETT, giving out something for print in behalf of the M. E. Board of Temperance, Prohibition and Morals, warns of an effort to "weaken enforcement of the law [the Eighteenth, of course] to encourage its violation, to incite hostility to it by subtle jests." . . . Most of the jests on Prohibition we've heard are as subtle as Prohibition whisky—or as the Eighteenth, itself, which has all the subtlety of a rhinoceros.

NOW that enforcement involves the nation in international scrapping and the necessity for practicing lying prone against the time when apologies fall due, Mr. Haynes, the Federal spokesman, has written a book to tell how he prevents us from getting a drink.

**DENVER'S DRY DELUGE.**

(U. S. in Session [Cal.] Star.)

There may be an occasional dry Democrat; but a wet Republican is a contradiction in terms from now on.

LETTER from Bucko T. MacDowell: "Go ahead, you care to, and kill off. Yes, we have no bananas here!" This Lexis has done well with and by it. You can't kill off the fact that, after all, the persons who insist that it is mine are more than nine times in ten [that's one of your locutions], the persons [that's another] who talk that way." . . . Yes, Bucko—yes!

THOSE of us who have been troubled about the world-outlook may cheer up; that trained observer, Newton D. Baker, says we'll all be mixed up in a new European war soon. Relying on the recollection that Newton did not learn of the world-war until a day or two before the Armistice, it seems safe to copper.

And when Firpo wins the championship from Dempsey . . . Arthur Brisbane in the Herald-Examiner:

HERE is blasted hope; for Mr. Brisbane, like Mr. Baker, is always wrong about fighting.

The defeat of Willard—huge, boorish, kind-hearted giant—is no disgrace to him—Told, N. O. Arthur, and the last person to think of defeat as disgrace is the kind-hearted giant himself; his end, net, will be not less than \$100,000.

**TWO FRIENDS, BUT NOT VOTING.**

(Hammond Pop-Culture, via Harwapple.) The Hammond High has just turned out the largest graduating class in the history of the Calumet district—1,100 students, 50 of them being young women and 55 young men.

BESSIE CLAYTON, who was dancing better than any of the others in a time when this part of the world was less interested than now in dancing of any kind, asks for divorce from Julian Mitchell, in the *Times*, as a "widely-known play-write." We are basic on his widely-known plays, and doubt if he is not among the few who have never undertaken to write a play. But his name brings up delightful memories of the style in which, when he gave up being a fourth-rate actor, he staged the *Weber and Fields* show and, notably, "The Wizard of Oz."

**IN REPLY TO OLIVE DOUGLAS**

In days gone by, dear Olive,  
You sang in phrases fine;  
But—these lines in Cockney largon:  
Can they, indeed, be thine?

Last year your dainty singing  
Wore quick response from me.  
And your naive and pretty questions  
And sparkling repartee.

We're a joy, indeed, sweet maiden;  
But, Oh, this Coaster slang  
To my heart brings bitter sorrow.  
And literary pang!

Ah! then I found quick answer;  
But, now you're on this rock,  
I am wordless, helpless, hopeless;  
I ain't, no get no come-back.

GEORGE MOOREYKE.

F. L. M. writes from St. Louis: "My astonishment at Mr. Harding's pro-Voelker speech is all the greater because, when he spoke here, he entered the Coliseum by the side door."

**DEMONSTRATING THERMOS BOTTLES.**

Christopher Morley in *New York Evening Post*: Sometimes we wonder what has happened to the Fever Girl of the Rockies, Miss. Did she go into the Chautauqua lecture circuit?

"I'm a trained nurse out of a job," writes Beulah, "and, is it that you can let me know what my chances are with the memorial hospital which, Shelly (Mont) is to build with the profits of the Dempsey-Gibbons fight?" . . . Your chances, Hel, we should risk; are as good as those of Shelly, itself—although, in fairness, not a bank has gone broke there in more than twelve hours.

John Stelzenbach, unlike the hero of Chevalier's famous ballad, didn't keep her "waiting at the church." Herbert Kaufman in yesterday's *Chicago American*:

PERHAPS like the hero of *Vesta Victoria's* famous hymn, he knocked her in the Old Kent Road.

S. D. clipped this from the Jackson (Mich.) *Commercial*'s report of a Typographical Union meeting: and we are printing it without prejudice to our interests in THE TRIBUNE'S composing room:

It would seem to be not a question of color, but a question of qualification that ought to be considered in selecting a medical staff for the hospital. The Negro soldiers are entitled to the best medical and surgical service that can be given them as American citizens who have served their country, and that is all there is to it.

IRENE THE STENO, strolling about Manhattan (in the fashion, we take it, of O. O. McIntyre, our pet stroller-about-Manhattan), says she saw this boost for the subway in the *Subway Sun*.

"The human factor is removed wherever possible," and this sign is in a Jeweler's window: *Suspense Guita for the June Bride*. . . . Like a nice girl Irene the Steno undertakes to gild neither, although insisting that she made *THE LINE* in other better days.

NOT REAL BUT LOVING. A child adopted from an orphan's home was being ridiculed by the other children because he had no real parents. The conversation was as follows:

"Aw, you haven't got any real father and mother."  
"Maybe I haven't, but the ones I have got love me as much as yours love you."

"They do not. Ours are our real parents."

"Well, mine love me more than yours do, you can't pick me out of a hundred other babies, and yours had to take what they got."—Milwaukee Sentinel.

TANTALUS.

**How to Keep Well. By Dr. W. A. Evans.**

Questions pertinent to hygiene, sanitation, and prevention of disease, if matters of general interest, will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered, subject to proper limitation, and where a stamped, addressed envelope is inclosed. Dr. Evans will not make diagnosis or prescribe for individual diseases. Requests for such services cannot be answered.

By Dr. W. A. Evans.

**PURIFYING WATER.**

THE man who goes for his vacation to some remote part of the world where the water supply is not protected need not fear typhoid fever if he will take advantage of several accepted measures of protection. Even if he has not taken a bath on the one hand, certain germs have probably polluted the water as they went, and where, on the other hand, no strong arm of government either protects or purifies, he may make things safe for himself.

In the first place, he can be vaccinated against typhoid. Most local health departments now immunize against typhoid on request. If the health department has not done this, the services of many physicians have had experience in doing so. If the individual prefers not to be immunized, he can protect himself by heating the drinking water, milk, and other foods. Water and milk are made safe by being heated to temperatures considerably lower than that needed for boiling.

Many health departments and many drug stores now supply hypochlorite of lime in solution or in tablet form to sterilize water. The solution used does not make the water too chlorine to drink. Most of the supposed "chlorine" taste in city waters is due to causes other than chlorine.

Another chemical available in tablet form for sterilizing water is chloroform. It can be had in most drug stores.

The latest suggestion comes from Dr. Hitchens. He recommends that soldiers who must drink distilled water add a few drops of tincture of iodine to the water.

Hoist a young thermos bottle in one hand and fill it with water. Add one drop, two will do no damage, of tincture of iodine, the ordinary 10 per cent kind sold at the corner drug store. Shake the water up a bit. Twenty or thirty minutes all the harmful bacteria will be killed. The amount of iodine added is too slight even to taste.

Iodine in this strength will not kill all the germs in water, but it will kill the members of the coliform group, which includes the typhoid bacillus and that which is known as *Shigella*.

GERMS: VEGETABLE AND ANIMAL.

L. H. W. writes: Will you kindly tell me what is meant by "germs of vegetable or animal character?"

3. How do germs create disease—by poisoning the system, clogging the circulation or by preying on the parts affected?

4. Would one run any risk of causing rabies in hogs by feeding them milk from a cow that is developing hydrophobia?

5. Could the milk of a cow that is developing hydrophobia cause rabies in

humans?

LIGHT THERAPY.

C. M. D. writes: Will you kindly tell me what is meant by "dry treatment with some one of the forms of light" which you mentioned in your column some time ago?

Exposure to sunlight is called heliotherapy. Light therapy also includes treatment with various kinds of lamps of which there are many on the market.

Some physicians and some hospitals are equipped to give treatments with one or more kinds of light.

RELATIVE BUILDING COSTS.

Chicago, July 11.—An item in this morning's Tribune states that the mayor has approved the construction of concrete manholes and catch basins in place of brick.

That, at least, is a big step in the right direction, and is further evidence that the new administration is trying to do the right thing for the people. For some reason this city has been ignorant of the economy in use of concrete for years.

We have had to pay the extra cost of brick in all kinds of buildings and other structures.

One of the most unjust regulations in our city building law administration prevents our citizens from using concrete blocks or concrete tile in wall construction. I don't believe you can find an unprincipled, incompetent engineer or contractor in the country, who would not tell you that concrete block and hollow tile wall units are as good as brick.

Then, if we can be using by the concrete units why are we not permitted to build our houses of that material?

Even with brick at only \$13 per thousand, it will cost about \$25 to lay a concrete wall, then, to figure the same wall laid with concrete block and the cost would be about \$

SE NO. XVII.

## EXPERTS FIND SMALL BRIBERY WITNESS SANE

**Close Argument in Case  
on Monday.**

BY JAMES DOWERTHY.

Washington, D. C., July 13.—(Special.)—After long arguments in the trial of the accused brothers of the jury which acquitted Gov. Small were adjourned until Monday, when both sides informed Judge Jacob Hopkins today they had finished the introduction of testimony. Thomas E. Sommerville, the last, and regarded as the most important of the state's witnesses, was declared sane by four physicians in the state's opinion this morning.

Col. A. V. Smith, state's attorney of Lake county, deemed it unnecessary to offer cross-examination for Sommerville and William J. Riley, the other important witness. He would not leave credibility to the jury, he said. As in contrast, none of the defendants, none of whom appeared as witnesses in his own behalf or in denial of the charges against them.

**Relyes on His Friends.**

J. Birles Fields of Antioch, who was a member of the small case jury, was content to produce thirty-eight of his fellowtownsmen who said he was of good character and that Riley, who testified he bribed Fields, could not be believed under oath.

Attorney William Scott Stewart, in behalf of Edward Courtney and Edward Kaufman, asked Judge Hopkins to rule out Riley's testimony. To Courtney, on the ground that he said Kaufman only handed him the money for Fields. This was denied. He moved to have the court instruct the state's attorney to tell as to Courtney and was overruled. A motion to force the state to elect on which of the nine counts in the indictment they would rely for a conviction was also denied.

**O'Brien Plan Rejected.**

Attorney W. W. O'Brien then, in the presence of the jury, offered to submit the case to the jury at that moment, without argument or instructions by the court. His associates, State Representative W. L. Pierce and Attorney Eugene Ruyard agreed in behalf of Fields. The state demurred.

Attorney O'Brien's reason was because he objected to having the prosecution follow his argument this afternoon—which would be in the jurors' minds over Saturday and Sunday—and other matters prevented a court session tomorrow.

Today's witness included three local physicians, and Dr. Clarence A. Neyman, former superintendent of the Psychopathic hospital of Cook county and noted psychiatrist. Each of them said Sommerville was sane and was at the time he said he was offered to rule for Gov. Small's acquittal. Dr. Frank Stoll, an ophthalmologist of Chicago, asserted that Dr. William Sommerville asserted that Dr. William O. Krohn, who testified that in his opinion Sommerville was insane, had only talked with the latter for two minutes.

**GIRL PURPOSELY  
LEAPED TO DEATH,  
POLICE BELIEVE**

Mrs. Elsie Campbell, loop waitress, who died from skull fracture Thursday night following her leap from a University of Chicago students' apartment at 5005 Drexel avenue, deliberately took her own life while despondent from domestic troubles, police decided yesterday.

Inquest into the girl's death, for which four students were held responsible, was adjourned yesterday by Deputy Commissioner J. J. Dredick to permit of further inquiry and to locate, if possible, the mother of Mrs. Campbell.

Mr. Dredick said he was not satisfied with the story of Harry Snofford, the student who took Mrs. Campbell to the flat after meeting her at 57 West Van Buren street. He recommended that all four of the students be charged with disorderly conduct so as to insure their presence when desired.

Authorities sought last night to communicate with the husband, Ivan Campbell, who is supposed to be living in Fort Dodge, Ia., with a brother.

**Company to Build Homes  
for Evanston Colored Folk**

Announcement of the organization of a company to build houses in Evanston for colored people was made yesterday by the Rev. L. T. Thompson, pastor of the Second Baptist church, Evanston. The company has a capital stock of \$50,000, he said, and already construction of four houses on Dewey avenue, between Simpson and Payne streets, Evanston, has been started.

**CHILD DIES OF BURNS.**

Anna Lupack, 9, died at the county hospital yesterday after receiving on July 13 in the yard of her home, 2442 Cortes street, when her clothing was ignited by a match fire.

**Low Fares  
Pacific Coast**

Make your next trip West a pleasant vacation. If you are in a hurry

## GERMANY ISN'T THE ONLY ONE BEING SMOKED OUT

[Copyright, 1923, by The Chicago Tribune.]

## DYRS FEAR DEATH OF DILLINGHAM, IS WET FORECAST

Washington, D. C., July 13.—The dry forces in congress, who for several years have exercised undisputed control over the legislative machinery handling prohibition bills in both senate and house, are looking forward with some concern to the next session in December.

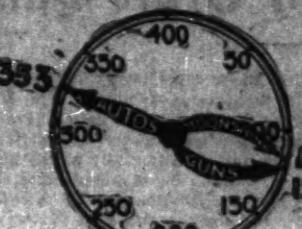

By a combination of circumstances, the men now in line for chairmen of the senate and house judiciary committees, which have charge of prohibition measures, are Senator Brandegee (Rep., Conn.) and Representative Graham (Rep., Pa.), both of whom voted against the Eighteenth amendment and since have steadfastly refused to be counted among the drys.

**Advanced by Death.**

Senator Brandegee has become the ranking member of his committee through the recent death of Senator Miller (Rep., Vt.), while Mr. Graham inherits the ranking position in the house committee through the defeat of the chairman, Representative Voelstad, in last year's primary in Minnesota.

Not only did Mr. Brandegee oppose the prohibition amendment, but he also voted against the Volstead act and the anti-beer bill as unconstitutional. Drys concede that with a judiciary chairman holding that view the pathway of any additional prohibition legis-

## HANDS OF DEATH

The clock indicates the number of deaths caused by automobiles, guns, and moonshine in Cook county since Jan. 1.

lation to be urged at the coming session is somewhat difficult.

Mr. Graham, after voting against the constitutional amendment, answered "present" on the roll call which passed the Volstead act, and who was recorded as "not voting" on the antisub bill.

**Dillingham Death Sudden.**

Montgomery, July 13.—United States Senator William P. Dillingham (Rep., Vt.) died here late last night. Mr. Dillingham underwent an operation three weeks ago for gall trouble. He rallied well and appeared to be on the way to recovery until last Sunday.

Senator Dillingham was born in December, 1843, and was a son of Paul Dillingham, who was governor of Vermont from 1886 to 1887.

**SENTENCED TO PAY HIS WIFE.**

Charged with nonsupport of his wife, Mrs. Marie DiRado, who stated he had never met her, and who was married eighteen years ago, Sam DiRado was ordered yesterday to pay her \$10 a week.

## YOUNG CURRAN HELD IN JAIL; WRIT THWARTED

Attempts to obtain the release on a writ of habeas corpus of Charles Curran, 21 year old son of State Representative Thomas Curran of the Fifteenth district, one of three bandits who figured in a gun battle with the police in a blind alley back of the Surf apartments early yesterday, failed later in the day when the police informed Judge Walter Brewer they would ask for a warrant charging him with robbery.

The case was continued until this morning, and in the meantime the police planned to arraign young Curran, and the other prisoners, James Stebbins, 232 West 20th street, and James Skoda, 234 West 20th street.

The boys were cornered in the alley by detectives after they had held up R. P. Hoffman, 252 Broadway, and Miss Esther Durbin in front of the latter's home, 485 Kenmore avenue.

**DINNER**  
5 to 7:30 p. m.

**CONTRARY** to the general custom Miss Ellis' Tea Shop will remain open Saturday afternoon and evening during the summer. Come over tonight to Miss Ellis—by the lake, where it's cool and inviting.

### The Evolution of the Food Market

To the right you see the old-time grocery store, with its unsanitary methods, high overhead cost and inefficient service.

Below is the SPIC AND SPAN Pure Food Market, with its immaculate cleanliness, lowest overhead cost and perfect service.

SPIC AND SPAN is the solution to the food problem for the individual. It is as far ahead as the Twentieth century is behind the stage coach.

**Come TODAY to the OPENING  
of the Wonderful New  
Spic and Span Pure Food Market**

4851-73 BROADWAY

Seventeen Stores in One

**Lowest Prices in the City**  
DUE to the enormous purchasing power of the seventeen merchants, and the low expense of doing business, prices in the SPIC AND SPAN are the LOWEST IN THE CITY.

Overhead is cut to rock bottom because the merchants are all under one roof, splitting the cost of such necessities as refrigeration, heat, light and storage.

You will be able to get at the SPIC AND SPAN things you cannot usually secure at ordinary stores. Imported delicacies, rare nuts and fruits, extra fine coffee and bakery goods, highest quality meats, dairy products, beverages, drugs, candy, flowers—the finest the world affords is here at low prices.

## BOOKS

## Best Sellers of the Ages

By James O'Donnell Bennett.

Eighty-first Paper—Milton's "Paradise Lost; or, The Quest of Beauty."

THIS little paper, my children, is between ourselves. For our sakes it would have neither use nor interest. They either know all we could tell them about John Milton's mighty epic upon the lifting of the curtain on the human drama that still is being played, or, knowing nothing, they are content. But we, because we are more curious, are also more responsive. We know this:

A man dignifies his own soul every time he takes up Milton. Besides he is good for the vocabulary?

The epic of "Paradise Lost" has been before the world for 254 years—an ever-increasing source of wonder and admiration. It was begun—John Milton's daughters writing it down from their father's dictation—in the year the Stars came back to the English throne—the year 1660. John Milton worked over it for nearly six years—and it is about the length of a popular novel of our time, one of those facile things we call a best seller. Its finished in 1667, the year of the London plague. It was ready for the printer in 1668, but the commercial depression caused by the plague delayed its publication until August, 1667.

It was a best seller from the start. When it came out John Dryden, then thirty years old but already the master of letters, exclaimed, "This can outs us all out, and the ancients."

"Shakspeare, for his honored bones, / The labour of his age in piled stones? / The aged and dilated robes should be hid / Dear son of memory, great heir of Fame, / What art thou?"

Then, in our wonder and astonishment, we saw the long, long monument, the most beautiful, the grandest, the shame of plain endeavor, during art.

"The sun numbers now, and that each

Bath, from the leaves of thy unpolished

"Shakspeare lines with deep impression tools;

"That thou, our joyes of itselfe bearing,

"With marble, with stone, with veins con-

"Ad, so reprobated, is such song, dost lie,

"Those songs for rock a tomb, with no voice,

"To be a best seller from the start.

And this, from Adam's long lament which comes about two-thirds of the way through Book X:

"Why am I, why do I overlive? / To deathless pain? How giddy would I meet / Mortality, my sentence, and be earth / Insensible? How glad would lay me down / With grace?"

A pillar of state. Deep on his front engraven / His helmeted head, and public care / And power, and the sword, and the spear / Show him, though in ruin. Sage he stood,

Majestic, though in ruin. Sage he stood,

With Atlantic's sounding surf to hear,

Drew audience and attention still as night / Or summer's noon tide air.

And this, from Adam's long lament which comes about two-thirds of the way through Book X:

"Why am I, why do I overlive? / To deathless pain? How giddy would I meet / Mortality, my sentence, and be earth / Insensible? How glad would lay me down / With grace?"

## Doris Blake

Tact Is Best.

Dear Miss Blake: As you have helped many a girl as she was in distress, would you not like to help one who is heartbroken?

I am deeply in love with a boy who is four years my senior. He is handsome, yet he is a careless dresser. I go out with him almost every Saturday and Sunday. I am ashamed to walk with him, and when I do walk with him I feel embarrassed. Please advise me what to do to make him dress neater. I am a neat and classy dresser.

I have decided to give him up. If your advice will not suffice to make a neater dresser of him. Do you think it is what I really should do?

HARTSHORNERS

Why don't you tell him you know kinda-chummy-like, that he'd be the handsomest man in captivity if he were just a bit more particular about his dress? And then you might when you get a sly chance to mention another boy who is not good looking but is made most attractive by his personal care. Don't come right out and criticize the youth. You can work the trick much more effectively by praising him and pointing out the possibility of his earning more praise. We are all susceptible to that line of reform.

## Patterns by Clotilde

WOMAN'S AND MISSSES' DRESS. This smart-looking design would look well with the collar, tie, cuffs, and tops of pockets made of some contrasting material.

The pattern, 1782, comes in sizes 16 years and 36, 38, 40, and 42 inches bust measure.

## MEN'S FASHIONS.

By A. T. GALLOCO.

Stick for Summer.

**NEW YORK.**—(Special Correspondence.)—There is something decidedly tropical in the appearance of a whangee walking stick. The bamboo effect suggests sandy island beaches, palm trees and balmy air. Hence, as a summer stick the whangee cannot, in the words of the multitudes, be beat. The man who carries a stick day in and day out, not to mention the evenings with which sticks are an important rite, and who has one for every mood and season, changes his heavier stick for a light one when the hot weather comes along.

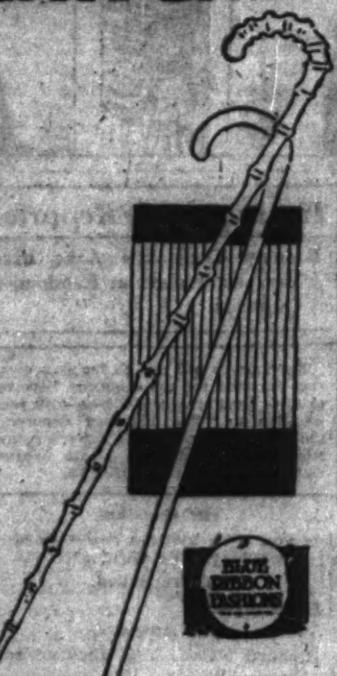

The man who does not take stick carrying as seriously as the winter coat supply or the rises and falls in the stock market, but who carries a stick occasionally, will sometimes swing a whangee on his arm as an accompaniment to his summer suit.

Answers.

R. S.: A brown coat with white fannels is O. K. It is just as favorably looked upon this year as a dark blue coat.

F. A. McN.: White fannels are not being worn with tweed coats by the best dressers. But if you want to wear the combination anyway, either a black or white vest will do, with white shirt, which may have a semi-stiff plaited bosom with buttons or studs of any kind. Black patent leather shoes are used with this outfit.

K. P.: I like your costume as you like it to me. The only suggestion I would make is that you wear a striped tie. With a figured shirt a striped tie is a little too much. However, the color scheme is interesting.

## TRIBUNE COOK BOOK

By JANE EDDINGTON.

Bitter Syrup for Drinks.

The bitter of the hop can be utilized without any process of fermentation. If we considered life unattractive without some of these flavors, we could probably do more with the hop than we have yet dreamed of doing, but we would have first to be convinced that it is good for us.

However, for variety and difference in the numerous cooling beverages we demand at this season, here is a hop tincture that is not half bad: Add one tablespoon of ground ginger to one-half ounce of hops, and boil them in a pint of water gently for one-half hour. The hop leaves swell and take up the water so that at the end of the half hour you will have about one cup or one-half pint. Strain this off, add one-half cup of brown sugar, or one-fourth of a pound would be more accurate in the case of brown sugar, and cook about ten minutes after the sugar has been dissolved with stirring or to sirup stage. When this has cooled add to it one cup or a little more of cold water. This amount of bitter syrup will be enough for eight glasses.

To serve it fill glasses three-quarters full of the syrup, then add seltzer water until the foam reaches the top of the glass. To make it mild, add something like root beer, add as much cream as syrup to the glass before putting in the fizzy water. This latter, with the bitter syrup, gives you the sort of a foam some people like to put their noses into.

## We Play on the Sands in Gay Ginghams

by Mary Honneywell

**NEW YORK.**—[Special Correspondence.]—Late June convinced us there was no danger of it being too cold a summer to go in heavily for bathing toga. The fourth's vacation tribe got away with travel kits stocked up to compensate for sufferings endured before, e.g., the dame who added to her stock another gingham bathing suit.

This time it is of bright green and white plaid, edged with little scallops of black taffeta. Banded knickers share the scallops, and they help the sides of the overskirt to stand out perfectly. It ties low, you observe, like a pinator. For her new swimming cap, she bought a green rubber affair, whose handied front boasts of black yarn stitching.

Quite a distinction is now made between bathing suits and swimming suits, if the censor on the beach is not too active. We swim in woolen trunks with stitched-on skirt, but we play on the sands in gay ginghams, chintzes, calicoes, patterned crepes, and the like, the gayer and more patterned the better, and we line our bathing caps or coats with matching fabric. Or else we swath ourselves in huge knitted capes that challenge the rainbow for vivid coloring.

Wise ones who dread sunburn, as all but the youthful do, are allowed to adopt long sleeves and high necks, and many avail themselves of the privilege; or else wear sun hats of straw over bathing turbans, and kerchief squares on snowy necks.

Who can put an end to one's worry that is affecting this poor soul and so lessen her troubles a little? The call comes from out of town, so the articles will have to be sent to her by parcel post.

## EMBARRASSING MOMENTS

The Tribune will pay \$1 for every letter containing a moment of My Life. Address: "Embarrassing Moment" Chicago Tribune. Write on one side of the paper. No name or right returned.

She's Still Blushing.

I had just come from a small grade school to all the glories of a city junior high, and being anxious to make a good impression on my teachers and companions I put on my best manners and my prettiest smiles.

Two days after my arrival a well known minister, whom I knew personally, came to speak to our assembly. As he advanced to the front after having been given a complimentary introduction by our principal, I, as I had always done before, began to clap loudly.

To my chagrin I discovered that several of the teachers were frowning in my direction, and that most of the scholars were staring at me.

It was useless to pretend I was not the culprit, and to this day I blush whenever I recall the episode.

C. R. S.

Surprises All Around.

A friend asked me to go to her apartment with her. As she opened the door she found her mother was having a party, and asked me to wait out in the hall.

I wished to scare her, hid in the doorway of the next apartment.

When my friend came out, not seeing me, she called, "I wanted her on the door, and it opened, and instead of a woman came out, I fell into the man's arms."

## Ringside Pictures of the Willard-Firpo Fight Reach City by Airplane—Lundin and Fifteen Others Freed

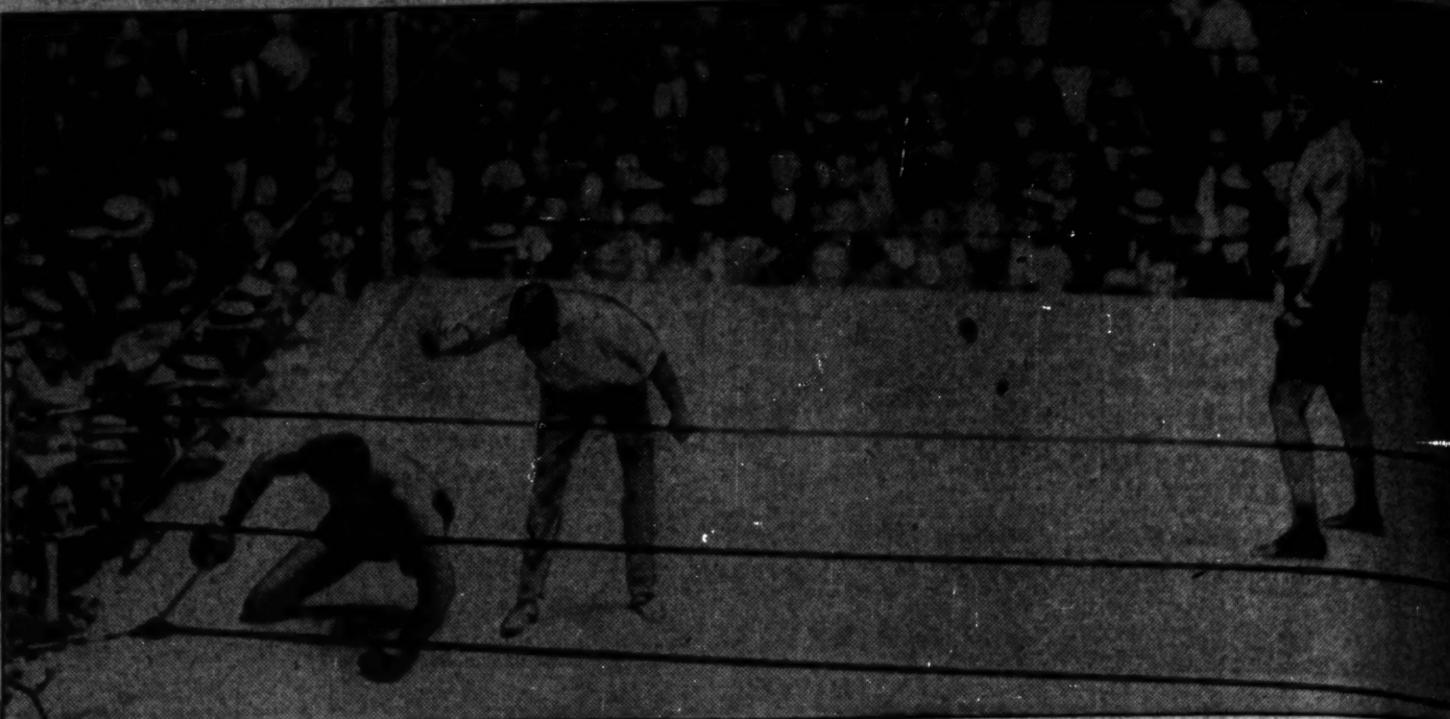

VOLUME LXXXII

(Copyright: Pacific and Atlantic.)  
**WILLARD TRYING TO RUSH THINGS.** In the fifth round the veteran fighter tried to force his Argentine opponent to the ropes, as shown in this picture.

(Copyright: Pacific and Atlantic.)  
**JUST BEFORE THE FINISH IN THE EIGHTH.** The picture shows Willard hanging on in a desperate effort to prevent being counted out.

**WILLARD OUT FOR THE COUNT IN THE EIGHTH ROUND OF HIS BATTLE WITH FIRPO.** A powerful right straight to the chin sent the veteran reeling to the ropes. Dazed and groggy he dropped slowly to one knee, while the referee tolled the count. He failed to lift himself to his feet and was lifted to his corner in a daze.

**MNNEOTTA HAS HOT ELECTION ON TOMORROW**

**Preus and Johnson in Real 'Hoss' Race**

**BY ARTHUR SEARS HENNIN**  
St. Paul, Minn., July 14.—(Spec.)  
The special election next Monday to fill the United States senatorial seat vacated by Senator Eugene T. Mahoney will be a "hoss race" between Preus, the Republican candidate, and Magnus Johnson, Farmer-Labor and radical candidate.

With the farmers busy in their fields and many town dwellers absent on holidays, a comparatively light voter turnout is expected. Neither side expects to win by more than a few thousand votes. The bets being made are on even money basis.

Last November Johnson came in 15,000 votes of beating Preus in the election, while Henrik Ship, Farmer-Labor candidate for seat defeated Senator Kellogg, Republican. The Farmer-Labor leaders think they might have put Johnson over, too, if they had not been concentrating their efforts on the election of Shipped. They regard Johnson as stronger and more popular than last fall.

**Farmers Are 'Dead Sure.'**

The radicals will muster their strength in the northern and western parts of the state, where the organization of the Farmers' Union is both widespread and strong. In sections where the union is strong, the radicals are dominant and in sections where it is weak, the sentiment is strong in all sections of the state.

The Republican leaders are preparing to lose most of the territory north of the Twin Cities, but are confident that this disadvantage will be offset by the pluralities for Preus in First and Second congressional districts in the south end of the state, which is the Republican stronghold. The Republicans will be satisfied if they can hold even with the radicals in the whole state outside of Minneapolis and St. Paul, where there is the best chance of achieving a plurality for Preus.

**Forecasting Returns.**

Charles Adams, Republican chairman, said tonight that the campaign is a close one and all depends on the extent to which the Republicans can get out to vote for Preus. F. A. Johnson, Farmer-Labor state chairman, says Adams' figures upon the extent to which farmers turn out for Johnson, which amounts to a total vote of about 400,000 compared with 700,000 last fall, are not accurate. Johnson, he says, bases his prediction on the election of Johnson by 40,000. He thinks Farmer-Labor ticket will poll 200,000, Preus, 170,000, and Casy, the Democratic candidate, 30,000.

In addition to the defection of discontented farmers the Republicans have lost the support of the radio stations, Congressmen Keller and Dill, whom Preus fought last year, and a number of local Republican leaders who are disgruntled over the direction of state patronage. On the other hand, Preus will have the support of a large number of conservative citizens who have been called by Conroy and former Mayor Dan O'Brien, St. Paul, the Democratic candidate, to aid in the effort to keep the state from becoming radicalized.

A local paper today said it is the opinion that the Workers' Party, the communist party, has recruited all of its members to support Johnson.

**Money (N. H.) Predicts Preus Victory.**

United States Senator George F. Jones, N. H., chairman of the Senate Democratic campaign committee, said for the first time after a long silence that Preus would win. He made no speeches, but devoted his time to awakening Republicans to the fear of the loss of another seat.

Appealing as he does to conservatives and progressives, regardless of party affiliation, to sway radicalism, Preus has taken his stand on his record as governor instead of the record of the Harding administration and the Republican congress. The whole situation, Senator Harding writes, is that the work of Preus has not been radicalized, nor has the Radical organization persecuted the communists in their speeches or campaign literature.

**New Hampshire Forest Fire Burns 6,000 Acre**

Plymouth, N. H., July 14.—A forest fire still burning in the woods west of here today had consumed nearly 6,000 acres. All the members of the volunteer forces who were racing against the flames last night were believed to have been accounted for at noon, with one possible exception. One state soldier was killed.
